The baseball season has been inaugurated here, and the local "Kid Team" went over to Mineral Point, Sunday afternoon and whalloped the Point team, composed mostly of the first nine players, to the tune of 9 to 7.

Miss Lizziebell Richeson will return to Festus the last of this week after spending a few days at home here.

We understand Miss Lizziebell has accepted a position as book-keeper with a leading mercantile firm at Festus.

The remains of John W. Silvey were brought to Potosi Monday evening and taken out to his old home near Shirley for burial, where the funeral was held Tuesday. Mr. Silvey died in Tennessee of pneumonia several days ago.

Capt Thomas Porter, of Boone Terre died on March 16th, aged 68 years. He was a mining captain and had been employed by the St. Joseph Lead Co. for 40 years. He was the father of Mr. J. M. McHenry, formerly of this place.

Louis Mayor, a farmer living near Brule, this county, was fined \$15.65 in Squire Rasche's court last Thursday for peddling apples without license.

Mayor had the apples shipped to him at Middlebrook and then peddled them throughout the county.—Ironton Register.

By a railroad collision at Piedmont last Wednesday morning nine people were more or less hurt, but none seriously. The accident was caused by passenger train No. 5 running into the rear end of passenger train No. 17, which was standing still in front of the Piedmont depot.

Wm. Barnhart was brought upon the brussels before Esquire Libhart last week on a charge of violating the law in regard to sending his children to school. He was fined \$25 and cost. We can not see where parents can come out ahead by keeping their children out of school at this rate.—Bourbon (Mo.) Standard.

There seems to be small-pox abroad in Piedmont, and the Banner, published in that town, which says it has helped so far to keep down the scare, now threatens to hold the city authorities and doctors responsible for any further spread of the infection, unless they are more diligent in maintaining quarantine regulations.

Among our renewals the past week are Mrs. Henry Gilliam, Shirley; J. E. Forbes, Palmer; J. T. Maxwell, Belgrade; J. M. Schmidt, Richwoods; J. W. Downey, J. A. Hochstetler, Jos. Patterson, Potosi; Henry Conzelmann, Irondale. Robert Portell, Cruise; J. A. Eaton and R. E. Gilliam of Belgrade are new subscribers.

The Federal Trust Co. of St. Louis has acquired the lands of the Austin Land and Lumber Co. lying in this county at a sale forced by the Federal court for an adjustment of the property, which had been in the hands of a receiver for some time. There are some 40,000 acres in this property and it is reported that the new owners will open the land for settlement soon.

A couple of soldiers from Jefferson Barracks, who must at least have the rank of corporal or something, because they both had swords by their sides, came to Potosi last Saturday evening and marched about town a few times to show off. We understand they went out to the Mayfield property in Liberty township to look it over with a view to its fitness for a summer camp and rifle range.

Mr. Wm. Schultz of Concord township was in our town Tuesday and called at this office to renew his subscription and also make a little politics talk. He is somewhat inclined towards the notion of becoming a candidate for the Republican nomination for presiding judge of the county court. He is a good citizen and enterprising man, and would no doubt make a good race for the office if he decides to come out.

The steam road engine seems to be becoming a popular mode of doing heavy hauling here, four or five of the machines have been introduced here within the past few months. Bohanan Bros. of Brazil took a new one out last week. They are being used for transporting lumber and staves from the mills to the freight yard in Potosi, and each machine, with two wagons attached does as much work as four or five teams, we are told. They could do more than that on better roads.

## 238 Fabrics Made to Measure

We have samples of 238 fabrics, all of the newest weaves. Many of these are silks. And we have a Portfolio picturing in actual colors the most charming spring styles created. There are 66 separate styles in suits, coats, dresses, skirts and capes.

These are all supplied to us by the American Ladies Tailoring Co., Chicago, whom we represent. They will make any garment to your individual measure—in any style and any cloth—just exactly the same as though you went in person to their tailoring shop.

An experienced fitter takes all the measurements right in our store. A diagram is made giving all the facts which a man-tailor needs to adapt the garments to your individuality. Thus you get all the distinctiveness—all the effects—which the highest priced tailor could give you.

We deliver the garments and guarantee satisfaction. Any garment not right is returned to the maker.

### About Ready-Made Prices

Garments made in this way—to your individual measure—cost hardly more than ready-made garments. Small ladies' tailors, for no better service, charge at least twice as much.

Suits from \$13.50 to \$45.00. Coats \$8.00 to \$30.00. Capes \$9.50 to \$22.00. Skirts \$5.00 up. These prices, remember, are for man-tailored garments, made to your measure. Please come and see the styles and fabrics. Let us quote you on the garment you want. See how easily and cheaply you can get the utmost in women's clothes.

## R. M. BUGG MERCANTILE CO.

### STILL DOING BUSINESS

W. J. Slais is still doing business at his old stand in Potosi, and has now on hand a complete line of all kinds of saddlery and harness goods, and will quote you prices that beat the mail order houses. All kinds of horse goods. Give him a trial.

Mr. Allie Carr, the popular junior member of the firm of Russell & Carr of this place, died himself to Jackson, Mo., last Monday where he was united in marriage on Tuesday morning, March 22d, at 8 a. m. to Miss Lillian Ford. The ceremony was performed at the home of the bride's father, Mr. A. C. Ford, one of the leading citizens of Jackson. Mr. Carr and bride arrived in Potosi Tuesday evening, and Allie is now receiving the congratulations of his host of friends here, in which the Journal heartily joins, and extends an equal welcome to his bride to our community.

### Grand Jury Has 'Em Scared.

The grand jury, after a week's labor, was dismissed early last week, and we have been informed that the result of its work is thirty-five indictments, and a number of people who have not been sailing their course strictly within legal limitations are worried and expecting a visit from the sheriff. The batch of indictments is the heaviest that has been returned in many a year. The jury was composed of representative, law-abiding citizens, and it was evident they felt that it was time to lay the stern hand of the law upon the malefactors. An open report was also filed, in which it approved, after investigation, the condition of the county farm, court house, jail, and the official conduct of the various county officers.

### Candidates For Circuit Clerk.

In its proper place will be found the announcement of Mr. J. E. Forbes of Harmony township as a candidate for the Republican nomination for the office of circuit clerk. Mr. Forbes is already well known and favorably known to many of the people of this county, but for the information of those with whom his name and personality are not familiar, we will say that he is a young man of ability and qualification, who can fill the office he seeks with credit to himself and satisfaction to the people. He is a school teacher and a farmer, married and has an interesting family; has an unblemished reputation and is esteemed by all who know him; in politics he has a clean record. In fact he is a good citizen, worthy of the confidence of all, and we take pleasure in commending him to the voters of the county.

Another candidate to announce for the office of Circuit Clerk is R. E. Gilliam of Belgrade, who is well known to the people of the south and west end of the county. Mr. Gilliam has for the past four or five years been employed in the drugstore of Dr. J. A. Eaton at Belgrade, and has the confidence and esteem of all who know him, and those who are familiar with his qualifications speak highly of his ability to fill the office he seeks. He is a family man, and of good, steady habits, and we feel that if the Republicans of this county nominate him for that office, their confidence will not be placed amiss. We are pleased to present his name to them for consideration.

### Judge Cole Comes Out.

Judge F. E. Cole has authorized us to announce him as a candidate for the Republican nomination for Presiding Judge of the County Court. Everybody in the county knows Judge Cole for a genial, whole-souled man, who has a lot of friends that will be glad to support him for that office. He, besides being one of the prominent, representative men of the south end of the county, has already had some experience on the county court bench, where he served in previous years as member from the second district, and made a good record, which we believe he would enhance as presiding member of the court, and his party record is as straight as could be asked. We take pleasure in commending Judge Cole to the voters of the county.

The Ladies Foreign Missionary Society of the Presbyterian church will have an open session, at the church Sunday evening. The following is the program.

The weather this March has been remarkable for its mildness and sunshine. The month came in like a lamb and has been acting like one all the way through, all of which goes to show how easily our long-distance weather guessers miss out. Take Prof. Hicks' predictions for the current month in the March issue of his paper, "Word and Works," which lies before us: From the 1st to 3d he has a regular storm period, with equatorial storms especially severe in the south; a reactionary storm period is made to cover the 6th, 7th and 8th, which if not stormy would produce unsettled weather; then again from the 10th to 15th would be another regular storm period, during which a blizzard out of the northwest would be natural on the flank of these storms; and another reactionary storm period up to the 19th, after which he hands us another "regular" as full of storm possibilities as any in the month. So far as we have observed by closely watching the daily press, no section of the country has been visited by as severe weather as Prof. Hicks predicts, so he has not even the comfort of generalization. Prof. is a pretty fair guesser on the general average system, which holds good at least seven times out of ten, as any one would be who had a weather record covering a period of two or three decades to go by.
